REQUIREMENTS

Freshmen (first-year students):

- Completed coursework equivalent to a U.S. high school
- TOEFL: 500 on the paper test (pbt) or 61 Internet-based test (iBT) or 5.5 IELTS
- Above average class standing

Note: SAT, letters of recommendation, personal statement NOT required for students outside the U.S.

Transfers:

- At least 2 years of transferable university courses
- Must include completion of a math course with a passing grade
- TOEFL: 500 on the paper test (pbt) or 61 Internet-based test (iBT) or 5.5 IELTS
- Above average class standing

Graduate (master's students):

- A degree equivalent to a U.S. bachelor's degree
- TOEFL: 550 on the paper test (pbt) or 80 Internet-based test (iBT) or 6.5 IELTS
 - Music (560 pbt/83 iBT or 7.0 IELTS)
 - MBA (570 pbt/88 iBT or 7.0 IELTS)
 - TESOL (573 pbt/89 iBT or 7.0 IELTS)
- Above average class standing. The equivalent of at least a 3.0 grade point average on a 4.0 scale is recommended for most programs.
- Supplemental Materials: some programs may require GRE, letters of recommendation, and/or personal statements. Applicants should check with their graduate department for details.

Note: MBA also requires GMAT score, letters of recommendation and résumé.

HOW TO APPLY

1. Apply online: www.csumentor.edu and pay the \$55 application fee
 - Fall application opens October 1 and classes start in August
 - Spring application opens August 1 and classes start in January

Note: Spring application is not open for freshmen and some graduate programs.
2. Submit documents by mail: official transcripts/mark sheets, test scores, and financial affidavit form. Graduate students also send supplemental materials.

COST

Estimated Annual Expense	Undergraduate 24 units	Graduate 18 units	MBA 18 units

CALIFORNIA STATE UNIVERSITY, FULLERTON

University Semester Abroad

www.usa.fullerton.edu

“Going abroad requires effort and organization, but my life is richer for taking that adventure. What I enjoyed most about University Semester Abroad was experiencing the typical American student life. At the beginning I didn't think I could keep up with American students. But at the end, that was the best part of the experience. Adjusting to another lifestyle taught me a lot, and I'm grateful.”

- Valentina Hensch, Germany

Accreditations and Rankings

California State University, Fullerton has high rankings on several lists of notable universities...

- CSUF is accredited by the Western Association of Schools and Colleges.
- *U.S. News & World Report* (September 2012) ranks CSUF among "Top Public Universities" and #5 among Top Public Universities-Master's Institutions in the West.
- CSUF's Steven G. Mihaylo College of Business and Economics is California's largest accredited business college. It is included in the 2013 edition of *Princeton Review's Best 296 Business Schools*.

The University

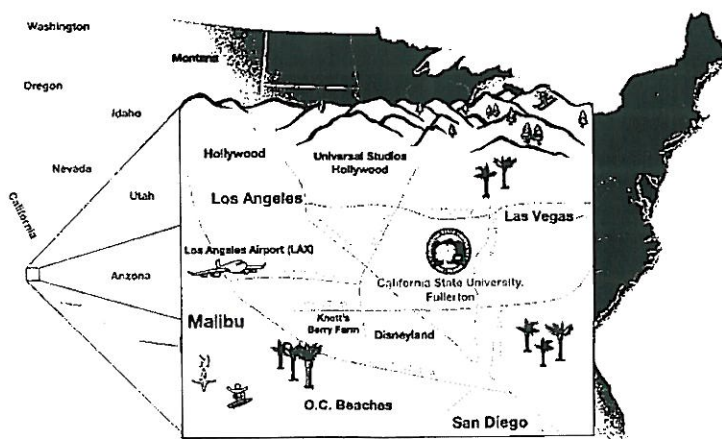

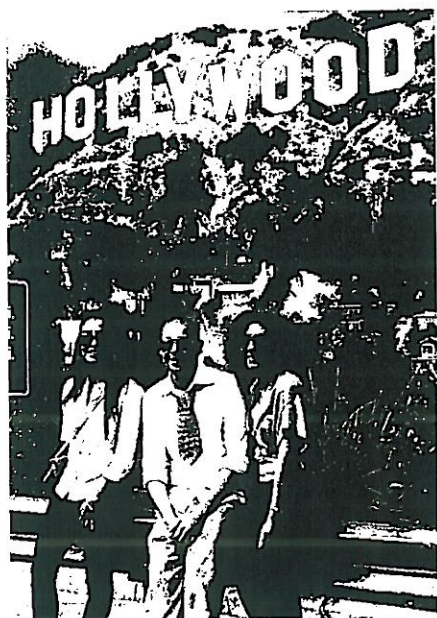

California State University, Fullerton (CSUF) is an accredited university offering more than 100 undergraduate and graduate degrees. 34,000+ students study business, economics, communications, MBA, education, engineering, computer science, graphic design, health, mathematics, arts, theatre, music, and other majors. The student population includes international students from 80 countries.

Great Southern California Location...

California State University, Fullerton is ideally located for experiencing all that Southern California has to offer. Fullerton is a safe, suburban city in the greater Los Angeles area, with many major sights and attractions nearby.

- An average temperature of 21°C
- Disneyland, Universal Studios, Sea World and more
- 300 museums featuring art, culture and natural history

The campus is a comfortable environment where international students can feel at home meeting people and making friends.

University Semester Abroad

Advance Your Degree in the U.S.A.

www.usa.fullerton.edu

If you are an international student who wants to study in America for just a semester or a year, University Semester Abroad (USA) provides a great cultural and academic learning opportunity for you. University Semester Abroad students experience American culture, learn in inspiring classes, enjoy Southern California and make lasting friendships.

Why Choose University Semester Abroad?

Quality University Classes

A large selection of university classes ranges from general education to business. CSUF has more than 100 degrees and over 3,400 different courses. Credits earned are a part of the student's permanent transcript and may be transferable to other universities.

Helpful Staff

International Student Services helps you adjust quickly and provides support throughout the semester. Services include assisting with your application, immigration advising, housing, and health insurance.

Contact International Student Services at international@fullerton.edu

University Semester Abroad Calendar and Fees

Term	Weeks	Dates	Tuition	Fees	Total
Fall 2014	16	Aug. 22 - Dec. 19, 2014	\$4200	\$1230	\$5430
Spring 2015	16	Jan. 16 - May 15, 2015	\$4200	\$1230	\$5430

Dates, tuition fees and health insurance prices are subject to change.

Health Insurance

Health insurance is available for \$102 per month for students 30 years old or younger, and \$129 for students 31-49 years old. Qualifying Health Insurance is mandatory for all F-1 and J-1 visa students.

How to Apply

Apply online or download an application at www.usa.fullerton.edu.

PROGRAM REQUIREMENTS

If you have recently scored above 500 on the paper-based TOEFL (iBT-61) or IELTS 5.5, or have comparable proof of English Language Proficiency, you may take up to 12 units of undergraduate courses, or a combination of undergraduate classes and intensive English classes. Permission to take university classes is subject to a placement test and other conditions.

APPLICATION STEPS

International students need an F-1 visa to attend University Semester Abroad. To receive an I-20, please submit the following:

1. Completed application form with your signature
2. Signature of your financial sponsor on the sponsor section of the application form
3. Original bank document or scholarship verification of support funds of \$15,000
4. Non-refundable application processing fee of \$100 in the form of a check or international money order payable to Cal State Fullerton
5. Photocopy of passport information page
6. Original high school or university transcript with in-progress courses
7. Copy of TOEFL or IELTS official test results.

Send application and forms to:

UNIVERSITY SEMESTER ABROAD
University Extended Education
California State University, Fullerton
2600 E. Nutwood Avenue, Suite 207
Fullerton, CA 92831 U.S.A.

Application submissions must allow enough time (up to 12 weeks) for processing, class schedule coordination, preparing the I-20 and mailing it to you to obtain a student visa from a U.S. embassy or consulate.

Areas of Study at California State University, Fullerton

“Studying two semesters at CSUF has truly been one of the best things in my life. I had the chance to learn a lot about the

American culture and to see a different school system. The professors are very professional and they helped me achieve my study goals. Campus life is very eventful and offers lots of possibilities to meet people from different countries and cultures. Studying at CSUF will leave a lasting impression on you!”

ACCELERATED MS IN SOFTWARE ENGINEERING

On-Campus Program – Finish in 17 months

California State University, Fullerton
extension.fullerton.edu/Masters/AMSE

Apply for Spring 2015

Cal State Fullerton's College of Engineering and Computer Science has been producing successful Software Engineers for many years with its award-winning online program. Building on this success, the new Accelerated MS in Software Engineering (AMSE) has been developed as an on-campus degree program that can be completed in just 17 months. The program is designed to prepare individuals for careers as software engineers and managers in the industry or government agencies and for advanced study as researchers.

The program curriculum is designed with the following learning goals: comprehension of software standards, implementation and management of software process, assessment/appraisal of software process, management of legal and ethical issues, collaboration and team work, critical thinking and problem solving, research, and communication.

Program Features

- Program always begins in the Spring semester (January)
- 10-course, 30-unit program to earn a Master's degree
- Accelerated program - four terms (Spring, Summer, Fall and Spring)
- Full-time program, with all classes held during the day on the Cal State Fullerton campus
- All courses taught by full-time professors
- Small class size, seats are guaranteed
- Program concludes with capstone experience – helpful for finding employment after graduation
- International students on F-1 visas are eligible for Optional Practical Training (OPT) up to 29 months
- Designated team for student assistance services

Eligibility

Minimum requirements for admission:

- Bachelor's degree in Computer Science or other majors along with equivalent professional experience
- Minimum GPA of 2.5 for the last 60 semester units
- TOEFL: a minimum score of 550 (paper) or 80 (iBT) or 6.5 IELTS (GRE not required)
We have conditional admission option for students who have not met TOEFL requirements. Please contact amse@fullerton.edu for more information.
- Prerequisite course: CPSC 362 Foundations of Software Engineering or equivalent professional experience or independent studies. Please contact program advisor, Dr Ning Chen (nchen@fullerton.edu), for options.

Program Cost

Tuition is currently \$25,000 for the entire program (a portion payable each term)*. Textbooks, campus fee, parking and other instructional materials must be purchased separately. *Costs/Fees are subject to change.

Apply Now for Spring 2015

Applicants must submit their application and the other required paperwork by September 30, 2014. Contact us to request an extension at amse@fullerton.edu.

For more information visit: extension.fullerton.edu/Masters/AMSE or email: amse@fullerton.edu or call 657-278-4272

9/27

How to Apply

If you have any questions regarding the application process, please inquire to amse@fullerton.edu

1. After August 1, 2014, apply online at www.csumentor.edu (\$55 application fee must be paid online).
Choose the program Software Engineering - Accelerated (on-campus program Ext. Ed.).
2. Submit the following documents to AMSE Admissions (see address below):
 - Official transcripts from ALL the colleges and universities attended (translated into English)
 - Personal statement
 - International applicants:
 - TOEFL or IELTS score (review eligibility requirements for acceptable scores)
 - International Student Financial Affidavit of Support accompanied by a bank statement and a copy of your passport (only the page with your photo is required)
(form available at www.fullerton.edu/international/resources/files/forms/affidavit_of_support.pdf)
 - Students sponsored by an international organization or home government agency must include a letter of scholarship support specifying CSUF and your proposed degree and program of study
3. Mail all the required documents to:
AMSE Admissions
ATTN: Degree Programs - Dr. Echo Chang
2600 Nutwood Avenue, Suite 950
Fullerton, CA 92831 USA

Curriculum

Core courses (12 units total)

- CPSC 541 – Systems and Software Standards and Requirements (3)
- CPSC 544 – Advanced Software Process (3)
- CPSC 543 – Software Maintenance (3)
- CPSC 545 – Software Design and Architecture (3)

Software Process Evaluation Courses (6 units total)

- CPSC 542 – Software Verification and Validation (3)
- CPSC 547 – Software Measurement (3)

Software Engineering Management Courses (6 units total)

- CPSC-546 – Modern Software Management (3)
- CPSC 548 – Professional, Ethical and Legal Issues for Software Engineers (3)

Capstone Experience (6 units)

- CPSC 597 I Graduate Project in Computer Science (3)
- CPSC 597 II Graduate Project in Computer Science (3)

These 10 courses should be completed over 17 months (four terms – Spring, Summer, Fall and Spring). The program is offered in the cohort format, meaning that students in the same cohort follow the same class schedule throughout the program.

Sample Course Schedule:

Term	Units	Courses
Term 1 (Spring)	9	CPSC 541, CPSC 545, CPSC 597(I)
Term 2 (Summer)	3	CPSC 544
Term 3 (Fall)	12	CPSC 546, CPSC 542, CPSC 543, CPSC 548
Term 4 (Spring)	6	CPSC 547, CPSC 597 (II)

歡迎報名2015年
春季班

美國加州州立大學(富樂敦校區)軟體工程碩士學位

加州州立大學(富樂敦校區)軟體工程碩士學位隸屬本校工程和計算機科學學院,多年來成功培養了許多卓越的軟體工程師。在屢獲獎項的線上課程基礎上,我們特別開發了新的校園上課模式。此項在校教學的軟體工程碩士學位只需17個月即可完成。本課程是專為有志成為軟體工程師和軟體工程管理者設計,畢業生可以在相關產業和政府機構就職或從事更進一步的科研工作。

本課程設計主要為幫助學生達到以下學習目標:理解軟體標準,實施和管理軟體程序,軟體程序評估/評價,法律和倫理問題的管理,協作和團隊合作精神,批判性思維和解決問題的能力,研究和溝通。

就讀本校軟體工程碩士學位主要優勢:

- 本校位於四季如春的南加州洛杉磯地區,鄰近迪斯耐樂園,好萊塢環球影城等旅遊景點
- 修課時間短,只需17個月,10門課程,即可取得名校碩士學位證書
- 春季(1月)開班,共四個學期,第二年的春季結束即畢業(詳見課程安排草案)
- 小班上課,每學期固定開課,無選課後顧之憂
- 由加州州立大學富樂敦校區的全職教授授課
- 畢業設計(Capstone Experience),學以致用,有助於學生畢業後的求職
- 國際學生畢業後可留在美國在職學習(Optional Practical Training)長達29個月
- 選派導師為國際學生提供課業及生活指導,並協尋宿舍

招生對象及條件:

- 大學計算機科學專業或其他任何專業科系畢業均可
- 平均分2.5以上(大學最後60個學分)
- 托福成績:筆考550或網考80或雅思6.5(不需要GRE成績)
- 對於托福或雅思沒有達到錄取要求的申請者我們會提供有條件錄取。在2015年春季開課後,此類學生需要修讀英文課程備考托福,如果英文程度允許,可以同時修讀正式課程。
- 非計算機科系畢業者另外要求先修1門軟體工程基礎課程,也可以相關工作經驗取代,或另類方式達成要求。具體情況請洽詢導師陳教授, nchen@fullerton.edu。

課程費用:

全程共25,000美金(分學期支付)。書本費,停車費,其它雜費,教學材料等需另行支付。學費如有調整,詳見網路公告或來信詢問。

申請時間:

申請者必須在2014年9月30日前遞交所有申請資料。如需延遲報名,請發郵件至amse@fullerton.edu。

有關學位詳情,請流覽我們的網站:extension.fullerton.edu/Masters/AMSE

發郵件至: amse@fullerton.edu, 或致電 657-278-4272

11/27

申請步驟:

1. 請於2014年8月1日之後在網上填寫申請表, www.csumentor.edu 並於網上支付報名費55美金。
請選擇學位項目: Software Engineering – Accelerated (on campus program Ext. Ed)
2. 請遞交以下材料至 AMSE Admissions (郵政地址如下):
 - 所有曾就讀過的大學、學院的成績單(中英文)
 - 自薦短文
 - 國際申請者:
 - 託福或雅思(請對照成績要求)
 - 國際學生資金狀況資訊表, 銀行存款證明及護照影印件(含照片頁即可)
請在以下網站下載表格:
http://www.fullerton.edu/international/_resources/files/forms/affidavit_of_support.pdf
 - 國際組織或政府資助者, 請提供證明信並注明資助就讀富樂敦州立大學, 所讀學位及專業
3. 郵寄所有申請材料至:
AMSE Admissions
ATTN: Degree Programs - Dr. Echo Chang
2600 Nutwood Avenue, Suite 950
Fullerton, CA 92831 USA

Intensive English Program

www.alp.fullerton.edu

Students (18 years and older) from around the world, can study English in an exciting intensive English program. Our talented and caring instructors are trained, professional English language teachers. The classes are held on the campus of California State University, Fullerton, a beautiful and safe university with an average temperature of 21° C. Come and enjoy warm beaches and meet the friendly people of California.

The Intensive English Program offers:

- 24 hours of instruction each week at eight different levels
- Conversation partners during class time and activities to practice English
- TOEFL / IELTS preparation classes and tests
- Courses to assist students in successfully completing their degree at California State University, Fullerton
- Student activities to visit attractions in the area such as Disneyland, Universal Studios and San Diego and learn about American culture

Health Insurance

Health insurance is required. Age 18-30 years old - \$102/month;
Age 31-49 years old - \$129/month

CALENDAR AND FEES

Term	Weeks	Dates	Tuition	Fees	Total
Spring 2nd Entry 2014	16	March 11 - August 1, 2014	\$4960	\$470	\$5430
Summer 2014	8	June 3 - August 1, 2014	\$2586	\$470	\$3056

Please note: dates, programs, tuition, fees and insurance are subject to change.

The American Language Program has met the high standards and is a member of the American Association of Intensive English Programs (AAIEP) and University and College Intensive English Programs (UCIEP).

Program of

Administered by
University Extended Education
California State University, Fullerton

Pre-MBA Program

alp.fullerton.edu/mba.aspx

The Pre-MBA program prepares international students with advanced English skills for the Master's Degree in Business Administration (MBA). Students interested in majoring in business at the undergraduate level will also benefit from this program. Students choose up to 24 hours per week of pre-MBA and/or American Language Program courses, depending on proficiency level. Qualified students may also take university classes for credit at California State University, Fullerton in combination with their pre-MBA classes.

The program will help:

- Prepare international students with advanced English skills for the Master's Degree in Business Administration (MBA) with both Intensive English and business courses
- Prepare undergraduate students for university business courses

In addition, students may have opportunities to meet, interview and hear guest lecturers from the business community. Opportunities are available to take IELTS and TOEFL (iBT and pbt) as well as GMAT Preparation classes. Both iBT and pbt tests are offered on campus.

Note: The Pre-MBA Program is only offered at the beginning of Fall and Spring semesters.

14/37

Conditional Admission

Conditional Admission allows academically qualified students to be accepted to the university after they study at the American Language Program (ALP), Cal State Fullerton's Intensive English program and meet the university's English language requirement. (TOEFL/IELTS).

- To qualify for conditional admission, students are required to have above average academic standing from high school or university.
- A TOEFL/IELTS score is not required at the time of application; although it will be required before entering university.
- Students will enroll in the American Language Program full-time for at least one semester (or 8 weeks during the summer.)

University English Proficiency Requirements

Undergraduate Students

- 500 on the paper based TOEFL (pbt) **OR**
- 61 on the Internet-based (ibt) TOEFL* **OR**
- 5.5 on the IELTS

Graduate Students

For most graduate programs:

- 550 on the paper based TOEFL (pbt) (560-Music; 570-Economics; 573-TESOL) **OR**
- 80 on the Internet-based (ibt) TOEFL* (83-Music; 88-Economics; 89-TESOL) **OR**
- 6.5 on the IELTS (7.0 for Music, Economics, and TESOL)

**Please note: Computer-based TOEFL scores are not accepted*

University Degrees

Undergraduate Study/Bachelor's Degree (BA, BS)

Conditional admission is available for the following undergraduate degrees:

American Studies	Dance	Linguistics
Anthropology	Economics	Mathematics
Art	Electrical Engineering	Mechanical Engineering
Athletic Training	English	Music
Biochemistry	Ethnic Studies	Philosophy
Biological Science	European Studies	Physics
Business Administration	French	Political Science
Chemistry	Geography	Psychology
Child and Adolescent Development	Geology	Public Administration
Civil Engineering	Health Science	Radio-TV-Film
Communications	History	Religious Studies
Communicative Disorders	Human Services	Sociology
Comparative Literature	International Business	Spanish
Computer Engineering	Japanese	Speech Communication
Computer Science	Kinesiology	Theatre Arts
Criminal Justice	Latin American Studies	Women's Studies
	Liberal Studies	

Graduate Study/Masters Degree (MA, MS)

Conditional admission is available for the following graduate degrees:

Computer Science	Linguistics
Economics (MA only)	Mathematics
Educational Administration and Leadership	Music
Engineering (Civil, Computer, Electrical, Mechanical)	Sociology
Environmental Science	TESOL (Teaching English to Speakers of Other Languages)
Gerontology	

“I enrolled in the American Language Program because I wanted to get admitted to CSUF. And right after I completed ALP, I was able to start studying computer science.”

- Sara Hariri, Iran

Application Process

Intensive English Program or the Pre-MBA Program

International Students need an F-1 visa to attend the Intensive English Program or the Pre-MBA Program. Please submit the following materials to receive an I-20 document to obtain this visa:

- Download and complete the ALP admission or the Pre-MBA paper application from alp.fullerton.edu. Print and sign the application and make an extra copy for your records.
- Pay the \$100 USD non-refundable application fee by credit card, check or money order made payable to "CSUF."
- Send an original bank letter on bank stationery or a letter from your sponsor or scholarship organization written on their stationery or that is dated within the last six months showing a minimum balance of \$15,000. You may also show a bank statement.
- Send a photocopy of the inside page of your passport with your photo and personal information. Applicants must be 18 years of age or older.

Send Documents and Payment to:

American Language Program
California State University, Fullerton
2600 E. Nutwood Avenue, Suite 200
Fullerton, CA 92831-3145 U.S.A

For Pre-MBA

Please Note: Admission to this program will depend on your English proficiency test scores and is independent of acceptance to the MBA program. Pre-MBA students must be qualified to attend high level courses. Your first step is to fill out the ALP application. If you have questions, send an e-mail to alp@fullerton.edu

Phone: 657.278.8293 • Email: alp@fullerton.edu

The University

American Language Program classes are held at the campus of California State University, Fullerton (CSUF). The campus has eight colleges which award more than 100 types of degrees. Over 36,000 students study business, economics, communications, MBA, education, engineering, computer science, graphic design, health, mathematics, theater and more. Visit www.fullerton.edu/world

Assistance for International Students

The International Student Services (ISS) office assists students with the application process, I-20s, DS 2019s, conditional admission, health insurance and housing. Contact ISS at international@fullerton.edu or call 657-278-2909.

Conditional Admission

More items are required when applying for Conditional Admission. Please submit:

- Download and complete the conditional admission paper application from internationaladmissions.fullerton.edu and indicate which major you want to study. Print and sign the application and make an extra copy for your records.
- Pay the \$180 USD non-refundable application fee by credit card, check or money order made payable to "CSUF."
- Send an original bank letter on bank stationery or a letter from your sponsor or scholarship organization written on their stationery showing a minimum balance of \$34,313 (undergraduate) or \$37,919 (graduate) that is dated within the last six months. You may also show a bank statement.
- Send a photocopy of the inside page of your passport with your photo and personal information.
- Send original transcripts or certified copy. A certified English translation of the transcript and diploma is required. All documents become the property of California State University, Fullerton.
- Explanation after high school letter: If you are applying as a first year student/freshman AND it has been six months or more since you graduated from high school. (Undergraduates only)
- Graduate students only: Review specific departmental requirements as noted: www.internationaladmissions.fullerton.edu/conditional-admission.aspx

Send Documents and Payment to:

Chapter Five

Striving For Excellence

"THE GOALS THEY HAVE SET FOR THEMSELVES ARE REALLY HIGH."

Attracting the Best And the Brightest

Each year a group of California high school students being wooed by Ivy League colleges decide to attend Cal State Fullerton instead. These students, among the best and brightest of their graduating class, are attracted to

Fullerton because of its academic reputation and its President's Scholars program.

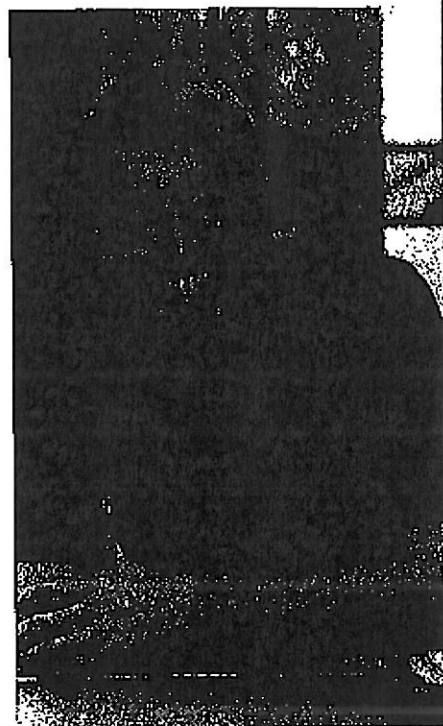

The program began in 1979 with 10 scholars and now numbers about 100. Funded entirely by donors, it provides full scholarships covering all student fees and \$750 stipends for textbooks for four years. President's Scholars receive automatic admission to the University Honors Program, priority registration and consideration for on-campus housing. Two particularly valued perks are complimentary parking permits and laptop computers.

Scholars attend special seminars and meet periodically with CSUF President Milton A. Gordon. In return, scholars must be enrolled full time, maintain a 3.5 grade-point average, and contribute to university and community activities. The scholars are active in community service, including fundraising walk-a-thons, preparing Thanksgiv-

ing dinners at the Ronald McDonald House, and counting ballots on election nights.

Adam Bakonis, a scholar majoring in finance, says, "It's very motivating to be around the other President's Scholars, to see their accomplishments, to see the work they do, and to see that the goals they have set for themselves are really high. It's not intimidating. I don't feel that there is a competitive edge to it at all. Everyone is there to help you out."

The President's Scholars program is funded entirely by donors and attracts high school students with superior academic and extracurricular credentials to Cal State Fullerton. "The President's Scholars program brings a depth and scholarly sophistication to our university that sets Fullerton apart," says President Milton A. Gordon.

13/39

A First-in-the-Nation Program for Foster Youth

At age 18, young people in foster care go out on their own, without further support from the government or their foster families. Forty percent become homeless in their first time out. Only 11 percent go on to college.

Fullerton's Guardian Scholars Program offers some of these youths an opportunity for a college education by providing full five-year scholarships, along with supplementary help including on-campus employment, mentoring and counseling sessions, and assistance finding off-campus jobs in their career field. Students can live on campus year-round rather than risk becoming homeless over vacations.

Founded in 1998, the Guardian Scholars Program was the first of its kind in the nation, setting an example for 19 other universities that have implemented or are developing similar programs. Funding comes from private individuals and foundations, working collaboratively with the university, the Orangewood Children's Foundation, and public agencies.

The program has exceeded its goal of enrolling 10 students each fall. Actual annual enrollments have ranged from 10 to 15. Students must take a minimum of 12 units of course work each semester and maintain a grade point average of at least 2.5, among other requirements. Graduates have gone on to graduate study or employment in fields including social work, land management, education, advertising and music.

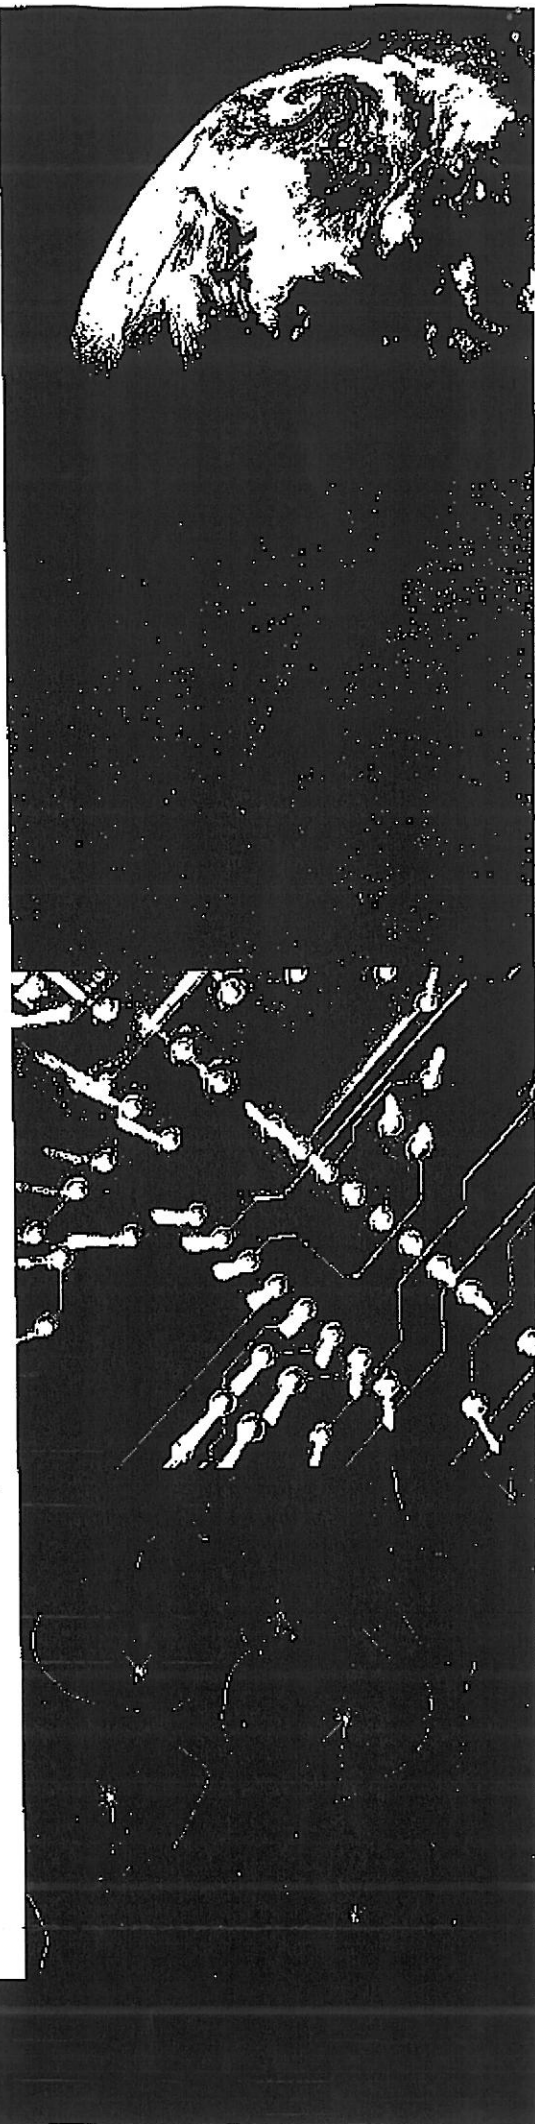

A 2005 graduate, Megan Gornall, sums up her gratitude to the program in these words: "To the world you may be one person, but to one person you may be the world."

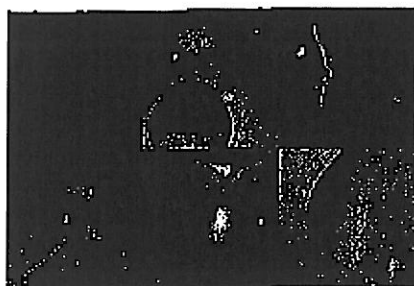

Growing Success, a symposium funded by the Stuart Foundation, highlighted the success of the Guardian Scholars Program. The CSUF program is a working partnership between the private sector, foundations, public agencies and educational institutions that awards scholarships and provides personalized support for ambitious, college-bound former foster youth who are making the challenging transition to adulthood.

Ten Guardian Scholars recently participated in a digital storytelling workshop, where they produced their life story videos as a way to facilitate personal development and increase awareness.

Growing Success

Guardian Scholars Symposium
CALIFORNIA STATE UNIVERSITY, FULLERTON

Freshman Programs Ease Transition to College

High school students who expect college to be more of the same are in for a surprise, but Freshman Programs help first-year students make a successful transition, both academically and socially. New freshmen can enter one of five Freshman Programs communities, all of which stress academic success, campus involvement and civic engagement. All five offer University 100 classes, which emphasize time management, leadership, research and stress management. The classes are overseen by a faculty member, student affairs staff member and a peer mentor.

"The first year is such a critical year for students," says Lia Gutierrez-Castillo, the program coordinator. "The quality of the first-year experience can really have an impact on the rest of a student's college career."

Fullerton First Year Community, which attracts the most members, is a two-semester program addressing traditional issues such as making new friends, establishing contacts with professors and meeting General Education course requirements. Freshman Future Teachers, also a two-semester program, introduces students to faculty in their fields and gets students into elementary

school classrooms through service-learning programs.

Compass, a two-semester program for students who haven't chosen a major, links students with the Career Counseling Office and academic advisers who can help students ascertain how their talents and interests can mesh with career paths. Live 'n' Learn, also two semesters, is open to students living in residence halls and focuses on creating a sense of community.

Freshman Success, a six-week program which operates the summer before college, provides remedial and developmental course work for students who didn't pass the mandatory English and math placement exams.

Studies have shown that Freshman Programs participants achieve a higher average GPA (2.87) than other first-time freshmen (2.55). Also, 55 percent of those who complete a full-year program graduate in four years.

"Your first year, which is your foundation in college, is crucial to your experience here at Cal State Fullerton," says Angela Abraham, a human services major from Santa Ana. "It really has a lot to do with who you will become, and allows you to see that you are capable of doing this. It allowed me to realize that I am an empowered student."

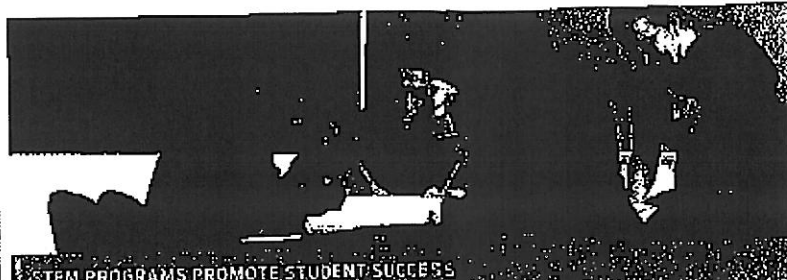

"The first year is such a critical year for students. The quality of the first-year experience can really have an impact on the rest of a student's college career."

Preparation for Doctoral-Level Research

How accurate are global positioning systems? How do religious values influence adolescents' moral decisions? What factors predict success among college freshmen? What does gender have to do with achievement in mathematics? These are among the topics that McNair Scholars are researching in collaboration with Cal State Fullerton faculty.

The McNair Scholars Program, founded in 1986 and named after an astronaut who died in the Challenger spaceship explosion, prepares students to go on to doctoral programs in a variety of fields, especially science and mathematics. The preparation takes the form of summer research projects, augmented by monthly meetings and social and cultural events with others in the program and expense-paid travel to one or more conferences.

Twenty Fullerton students a year — most of them juniors — become McNair Scholars. Eligibility requires a grade point average of at least 3.0. Family income must fit defined income levels. The program targets first-generation, low-income college students and members of racial or ethnic groups underrepresented in graduate education.

STEM PROGRAMS PROMOTE STUDENT SUCCESS

Cal State Fullerton is creating and enhancing programs and research that promote STEM study, in response to what experts have called the crisis of the eroding American base of science, technology, engineering and math. Partnerships between CSUF and community groups, such as the Fullerton Chamber of Commerce, also are forming in an effort to prepare future scientists. Additionally, the College of Education is establishing strategies for recruiting and preparing new math and science teachers.

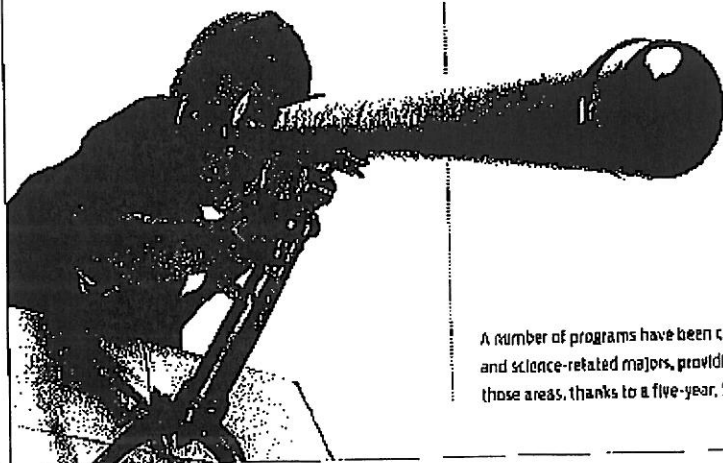

"It is absolutely imperative for us to increase the number of people in the STEM fields if we're going to stay competitive in this world," says President Milton A. Gordon. "We are trying to give students who are going into the STEM fields more support, because math and science are not considered attractive to many students." Here are just a glimpse of Cal State Fullerton's efforts to support STEM outreach.

1 The Study 25-35 Campaign targets freshmen and encourages them to spend more time studying science and math. Student reaction to the study campaign has been positive, says Bill Hoese, associate professor of biological science. "Because college is so different from high school, I think many students appreciate guidance on how much to study," Hoese says.

2 The Minority Access to Research Careers (MARC) Program, established more than a decade ago, exposes undergraduate students to various types of research and the skills necessary to enter and succeed in graduate programs.

3 The Peer Group Program is for freshmen studying math, science, engineering and computer science. One peer adviser is assigned to each college and serves as a group facilitator for peer group members. The adviser is also responsible for planning weekly group meetings. Each week, the groups discuss different topics, such as time management, study skills, campus resources and career options.

4 The ECS Scholars Program places first-year students majoring in engineering or computer science in a "learning community." They take core classes together and attend study group sessions that assist with their learning. Tutors are assigned to work with students and attend classes with them, as well as lead study group sessions.

A number of programs have been created to focus on increasing the retention of students in math- and science-related majors, providing support for academic success and encouraging careers in those areas, thanks to a five-year, \$2.3 million grant from the U.S. Department of Education.

Chapter Six

The College Experience

"CAL STATE FULLERTON'S CAMPUS IS SO BEAUTIFUL, AND THE PEOPLE ARE SO FRIENDLY."

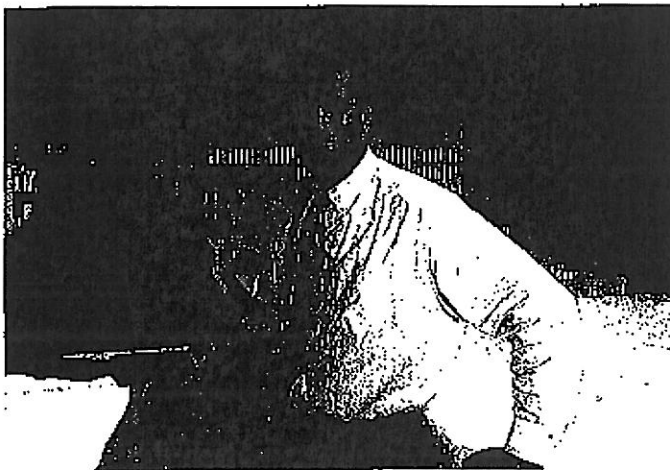

Opportunities for Involvement Flourish at Fullerton

More than 250 clubs, fraternities and sororities, and multicultural organizations operate on campus. Leadership roles abound throughout these organizations, but their apex is Associated Students CSUF, Inc. (ASI), the student government, whose members administer an annual multi-million dollar budget covering recreational sports, the Titan Student Union, the Children's Center, and the university conference center. These elected representatives devote hours a week to the task in addition to academic and work

responsibilities, but they, like the leaders of CSUF's other extracurricular organizations, find the experience a great preparation for their post-graduate lives.

Heath Reithman, a three-time AS president in the 1990s, says the position "helped provide me with good leadership skills, improved my speaking ability, and taught me how to manage a budget. I became successful in business much earlier than most people get a chance to."

Former AS President John Belster, now CSUF's Director of Risk Management, said the experience "gave me a lot of confidence

- | | | |
|----|----|----|
| | 02 | 03 |
| 01 | | 04 |
- 01 John Belster values his experience as a former Associated Students president. 02 Approximately 1,000 students are affiliated with 26 fraternities and sororities, which devote more than 3,000 hours per year to local charitable causes. 03 The CSUF Children's Center offers care to the children of students, faculty and staff. 04 The Student Recreation Center will serve both individual and group fitness needs.

in casting a vision and accomplishing that vision. I can go into a new situation and have the confidence to know how to create a plan, vision, or strategy, and how to achieve it."

"Learning more about the university and really feeling like I am an active participant on our campus makes me feel like I am giving something back," says political science major Drew Wiley. "I love coming to school here. I've been involved in so many different things and that's where I've met my closest friends."

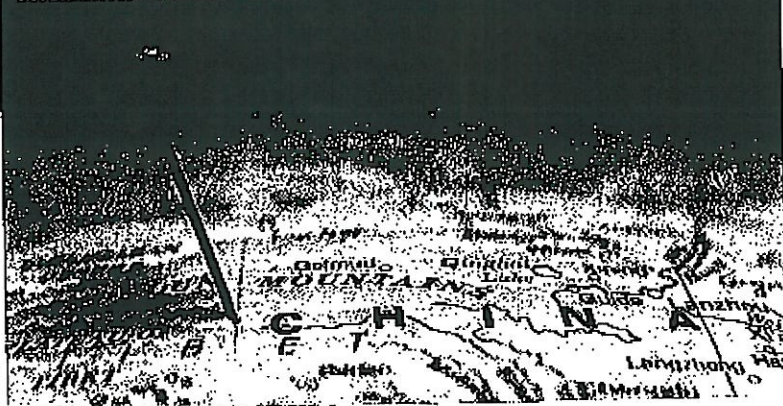

Learning Leadership Skills

Each year about 350 students take part in the Student Leadership Institute, a non-credit certificate program that both teaches effective leadership skills and provides ways to practice them. Workshops, offered frequently during the semester, deal with such fascinating topics as ethical decision-making, dealing with difficult people, culture and gender roles, communication styles and leading in the face of controversy.

Students put these skills into practice by entering one of six tracks: career leadership, entering the work force; university leadership, personal and organizational traits; EMBRACE; intercultural communication; public service and nonprofit leadership; civic responsibility; peer health education, promoting healthy lifestyles; and student-to-student tutoring.

About 3,500 students have benefited from the program, centered in the office of the Dean of Students, since it began. In fact, *The Templeton Guide: Colleges That Encourage Character Development: A Resource for Parents, Students and Educators* lists CSUF's Student Leadership Institute among the guide's "Exemplary Programs" in the student leadership category.

INTERNATIONAL CONNECTIONS

The College of Business and Economics, in collaboration with three European universities, offers a Business Europe Study Tour. As students travel through five European countries, they gain first-hand insight into the continent's economy and business and management practices.

American students from Cal State Fullerton and the University of Connecticut attend courses and conduct research on coastal marine management with their counterparts at two Brazilian universities. The goal is to "educate students about the global implications of not managing the development and use of our coastal seas and watersheds," according to Steven Murray, dean of the College of Natural Sciences and Mathematics, himself a leading authority on marine ecosystems.

The Vietnamese-American MBA Chapter of the Alumni Association, operated by recent MBA graduates, provides social and business opportunities for alumni living in Vietnam and abroad. Chapter meetings take place in both the USA and Vietnam.

Teachers and managers from China, Vietnam, Japan, and Korea come to the Fullerton campus for specialized training in education and public administration under agreements with Asian universities. Travel plans are not one-directional. In the Experience China program, California educators traveled to China to work with students in an international summer camp and to help Chinese teachers improve their skills in teaching English.

"Cal State Fullerton has so many diverse opportunities for students, faculty and staff."

TITAN ATHLETICS CAL STATE FULLERTON

A Few for the Record Books: Titan Hall of Fame Athletes

Titans sports teams have won 12 national championships — testimony to the outstanding teamwork of Cal State Fullerton's athletes and to the prowess of individual competitors. Some of its best athletes and coaches, who honored the university both on and off the field, have been inaugurated into the Titan Athletics Hall of Fame, established in 2005.

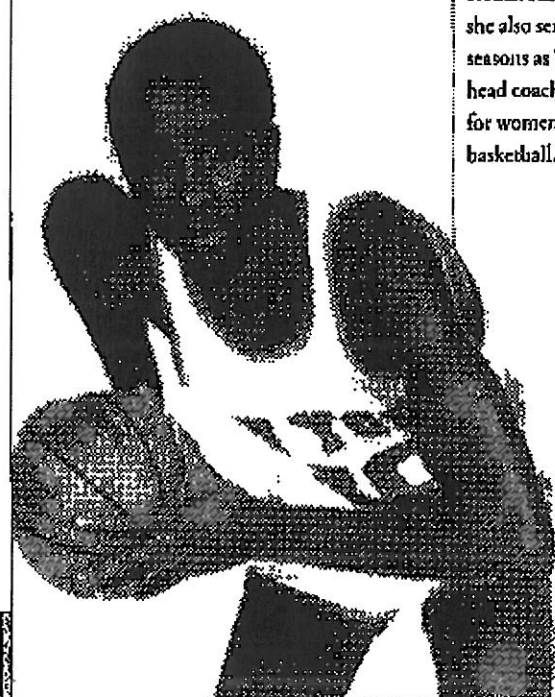

They include:

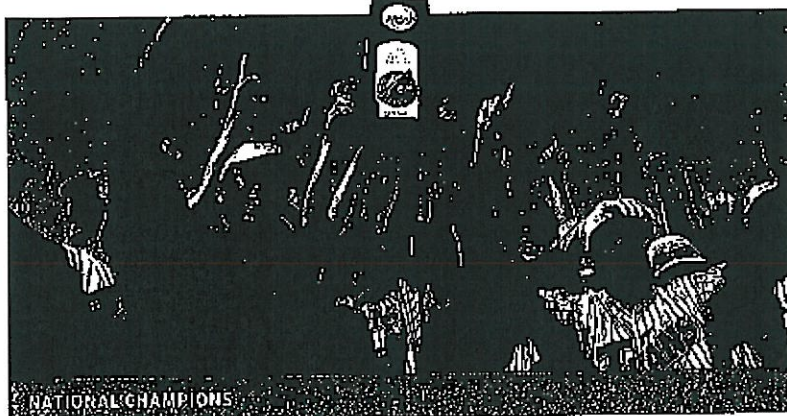

Basketball player Greg Bunch, star of the team that advanced to the finals of the 1978 NCAA Western Regionals — the university's only appearance — coming up one basket shy of the Final Four. The forward also led the Titans to their only conference championship in 1975-76. Bunch played briefly with the New York Knicks.

Inducted into the Women's Basketball Hall of Fame in 2000, Nancy Dunkle is the fifth-leading scorer in Titan history, gaining 1,559 points during the 1973-77 seasons. A three-time Kodak All-American, she also served two seasons as Titans' head coach for women's basketball.

Tami Elliott-Harrison was one of the nation's top gymnasts, winning All-American status 10 times before suffering a serious neck injury that curtailed her 1987 season. Despite her injury, she received the 1987 American Award, an annual honor given to the nation's top collegiate senior gymnast. In 1989 she was named Miss Virginia and competed in the Miss America pageant.

Augie Garrido was the architect of Fullerton's highly successful baseball program. In 21 seasons (1973-87 and 1991-96), he compiled a record of 931 wins, 391 losses and six ties, including 15 conference championships — 11 consecutively. Garrido took the Titans to the College World Series in Omaha on seven occasions, winning national championships in 1979, 1984 and 1995, and placing second in 1992. He was selected national coach of the year four times.

Titan teams have earned 12 national championships in seven different sports:

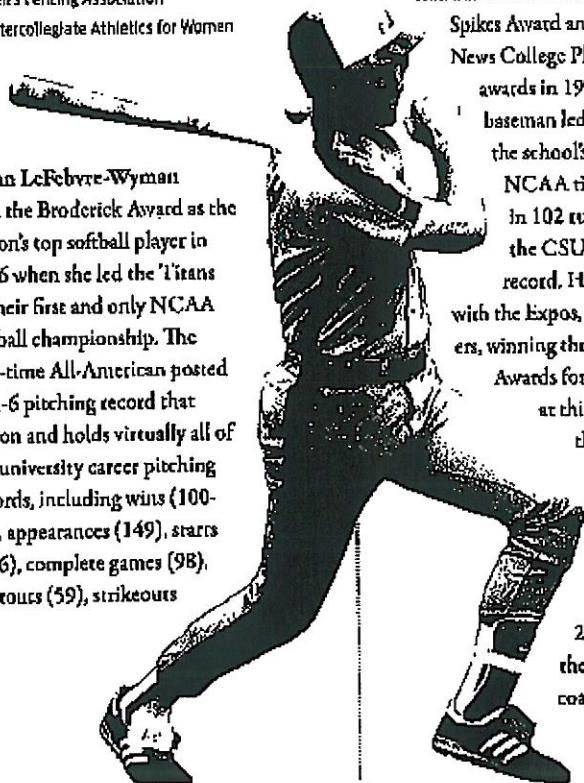

- ❑ Women's Basketball (1970) — Women's National Invitational Tournament
- ❑ Men's Gymnastics (1971, 1972, 1974) — NCAA College Division (now called Division II)
- ❑ Men's Cross Country (1971) — NCAA College Division
- ❑ Women's Fencing (1974) — National Intercollegiate Women's Fencing Association
- ❑ Women's Gymnastics (1979) — National Association of Intercollegiate Athletics for Women
- ❑ Baseball (1979, 1984, 1995, 2004) — NCAA Division I
- ❑ Softball (1986) — NCAA Division I

Susan LeFebvre-Wyman won the Broderick Award as the nation's top softball player in 1986 when she led the Titans to their first and only NCAA softball championship. The two-time All-American posted a 31-6 pitching record that season and holds virtually all of the university career pitching records, including wins (100-21), appearances (149), starts (116), complete games (98), shutouts (59), strikeouts

(702) and innings pitched (894.2). Her 34 complete games in 1986 also are a single-season record.

Eugenia Miller-Rycrow holds virtually every career record in CSUF women's basketball history. She led the Titans to their only two NCAA tournament appearances in 1989 and 1991. She scored 2,415 career points and holds the Big West record for single-season scoring. She played professionally in Japan (1991-93) and returned after several years of raising a family to play for the Los Angeles Sparks of the WNBA in 1998-99. She is currently assistant coach in the Titans' program.

Tim Wallach was the Titans' first baseball star. He won USA Baseball's Golden Spikes Award and the Sporting News College Player of the Year awards in 1979 when the first baseman led the Titans to the school's first Division I NCAA title. Wallach drove in 102 runs, which still is the CSUF single-season record. He spent 17 seasons with the Expos, Angels and Dodgers, winning three Golden Glove Awards for fielding excellence at third base and making the National League All-Star team five times. Wallach returned to CSUF as an assistant coach in 2000 before joining the Dodgers as hitting coach.

Past CSUF athletic greats: Greg Bunch, star basketball forward; Nancy Dunkle, former CSUF basketball coach and star player; Tamri Elliott-Harrison, one of the nation's top gymnasts; Augie Garrido, baseball coach; Susan LeFebvre-Wyman, top softball pitcher; Eugenia Miller-Rycrow, record-holding basketball player; and Tim Wallach, Fullerton's first baseball star.

At Cal State Fullerton, we are committed to offering you an exceptional education. You have a choice of more than 100 academic degree programs offered by eight different colleges. Our university is fully accredited by the Western Association of Schools and Colleges and many of our degree programs are further distinguished by national accreditations and associations.

Notable Rankings

- **U.S. News & World Report** ranks Cal State Fullerton No. 6 among "Top Public Universities-Master's Institutions in the West."

- Cal State Fullerton is a national leader in price, quality and accessibility and one of only five universities cited by the Education Trust as the most affordable and accessible institutions with high graduation rates among 1,200 four-year universities and colleges.

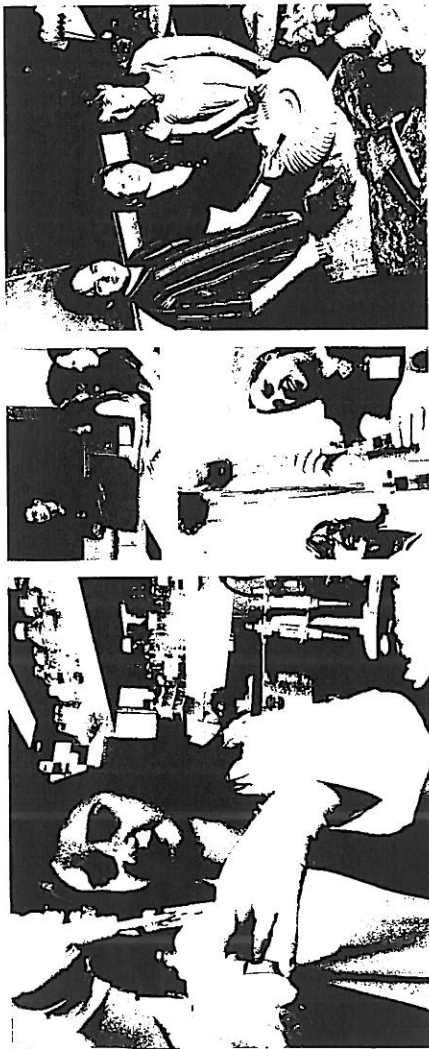

- Cal State Fullerton is ranked seventh in the nation for international student enrollments among comprehensive master's institutions according to *Open Doors*, published by the Institute of International Education. International students, representing 80 nations,

for the past 12 years.

- The Steven G. Mihaylo College of Business and Economics is California's largest accredited business college, and is included in the 2011 edition of *Princeton Review's* "Best 300 Business Schools."

- An August 2010 report compiled by *Forbes Magazine* and the Center for College Affordability and Productivity ranked CSUF among the top 100 public colleges in the nation. The report ranked 600 undergraduate institutions based on the quality of the education they provide, experience of students and how much they achieve.

- *"The Templeton Guide: Colleges That Encourage Character Development"* lists CSUF's Student Leadership Institute among "Exemplary Programs" in the student leadership category.

Diverse College Choices

Undergraduate and graduate degrees are offered by the following eight colleges:

- College of the Arts: fullerton.edu/arts/
- College of Communications: communications.fullerton.edu/
- College of Education: ed.fullerton.edu/
- College of Engineering and Computer Science: fullerton.edu/ecs/
- College of Health and Human Development: hhd.fullerton.edu/
- College of Humanities and Social Sciences: has.fullerton.edu/
- College of Natural Sciences and Mathematics: nsm.fullerton.edu/
- Mihaylo College of Business and Economics: business.fullerton.edu/

Outstanding Faculty

At Cal State Fullerton, you can expect an exceptional environment where you learn from professors who encourage you to see what's possible and empower you to achieve your goals.

- About 2,100 faculty members bring impressive credentials and diverse backgrounds to the classroom.
- Students are taught by professors, not teaching assistants, and their primary focus is teaching and helping you reach your potential.
- Enjoy smaller classes – most undergraduate classes have fewer than 30 students.
- Gain exposure to opportunities outside the classroom that include undergraduate research, professional internships, prestigious competitions, comprehensive projects and more.

Supportive Student Services

Our International Education and Exchange office provides a welcoming environment and personally assists you from your application through graduation. Services and programs include:

- Pre-arrival information and resources
- Orientation seminars
- Immigration advising and assistance with visa documents
- Personal, academic and cultural advisement
- Employment opportunities and career workshops
- International Student Association and Volunteer International Peer Program
- Invitations to social events and activities, including an "International Coffee Break" hosted weekly on campus

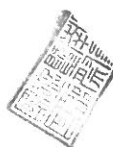

As a Cal State Fullerton student, you can take advantage of a full range of student support services that include academic advising, Freshman Programs, peer mentoring and tutoring, and Student Academic Services.

Getting Involved on Campus

Our campus offers many opportunities for you to get involved, enjoy new experiences and meet wonderful friends. More than 200 clubs and organizations provide programs and activities, including academic and honors organizations, social and professional, or cultural and recreational choices to suit your interests. You can learn new skills, take on leadership roles or volunteer for service projects through student government, the Student Leadership Institute and our Center for Internships and Community Engagement.

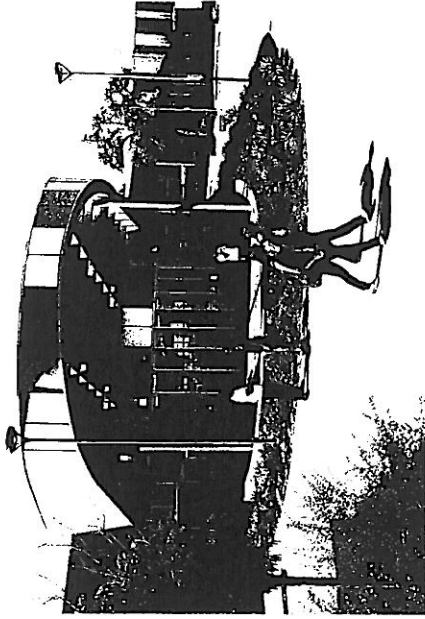

66 I felt guided, safe and support ed by the International Education & Exchange staff, especially during the admission process, where my international adviser guided me step-by-step from my country of origin to the U.S. Furthermore, the Counseling Department faculty inspired me with their knowledge, experience and dedication, and they always encouraged graduate students to be **introspective** and to continue on the road toward self-realization. 79

- Guillermo Silva-Rodrigo, Mexico (M.S. Counseling)

Housing on Campus

Our student housing on campus offers both traditional residence hall and apartment-suite style housing choices. A new \$143-million residence hall complex opened in summer 2011, adding more than 1,000 beds and a beautiful new dining facility. The new Gastronome offers healthy, nutritious meals, a choice of affordable meal plans and a great place to gather with friends. For more information, including off-campus housing options, visit: fullerton.edu/housing.

Non-Resident Student Budget

Affordable Choice for International Students

Cal State Fullerton has one of the lowest public university tuitions in the nation and one that's still below the national average. Even with additional nonresident tuition fees, international students still find Cal State Fullerton to be more affordable than other public and private universities. In fact, Cal State Fullerton was recognized as a national leader in price, quality and accessibility according to a report by the Washington D.C.-based Education Trust.

California State University Fullerton offers more than 100 undergraduate and graduate degrees in a wide variety of academic fields. Many of these disciplines also provide opportunities for concentrations and special emphasis areas within a given degree.

"I chose Cal State Fullerton because of its **wide range of major selections** I am majoring in international business, and CSUF is the only university that has a concentration in languages. This will benefit me in the long run because I have unique skills that I can offer to corporate recruiters. Another reason I came here is because the campus is safe and convenient. CSUF is located near the freeway, and buildings are close together so that I don't have to walk far.

In addition, the International Office staff and counselors were very **helpful and friendly**. My experience was more than great. I actually started missing it the minute I graduated. I met so many people and made friends from different backgrounds and experiences.

I decided to join the Volunteer International Peer Program, and I can honestly say that it was the **best experience** of my college life. All of us became good friends."

- Ariani Wibawa, Indonesia
 (International Business/Japanese)

Admissions for International Students

Cal State University welcomes applications from international students. Applications should be submitted online using the International Student Application at csumentor.edu according to the following schedule:

For Fall Semester

Apply beginning October 1 of the preceding year. Application must be completed with supporting documents by March 15.

For Spring Semester

Apply beginning August 1 of preceding year. Application must be completed with supporting documents by October 15.

Admissions Requirements: For complete admission information, please visit the Admissions website at: fullerton.edu/admissions/ProspectiveStudent/International.asp.

Freshman Students:

Students applying with no college work completed must have:

- A score of at least 500 on the paper test or 61 on the Internet-based test (IBT) of the TOEFL.
- An acceptable IELTS score is 5.5 or above.
- Applicants must have completed coursework equivalent to a U.S. high school curriculum.

Transfer Students:

Students applying with the equivalent of at least 60 transferable semester college units must have:

- A score of at least 500 on the paper test or 61 on the Internet-based test (IBT) of the TOEFL.
- An acceptable IELTS score is 5.5 or above.
- Students must also be in good academic standing at an internationally accredited college or university.

Graduate Students:

Students who have earned a degree equivalent to a U.S. bachelor's degree may apply for a master's degree.

- A minimum score of 550 on the TOEFL paper test or 80 Internet-based test (IBT) is required.

Note: Some academic departments require a higher score.

- An acceptable IELTS score for graduate applicants is 6.5 or above.

Application Process

It may take 4-5 weeks to process an application and to issue an I-20. To expedite the process, a student is encouraged to submit all necessary documents immediately upon submission of the application to:

Admissions Office, PO Box 6800, Fullerton, CA, 92834-6800, USA.

Those documents include the required level of TOEFL score; all transcripts or mark sheets in both the native language and an English translation; degree certificates; and for graduate applicants, required documents for the specific department. Upon being admitted to the university, international students must submit the International Student Financial Affidavit form and financial documents to: **International Education & Exchange (UH 244), 800 N. State College, Fullerton, CA, 92834-6830, USA.**

You may download the International Student Financial Affidavit form at: fullerton.edu/International/forms/.

Once the financial documents have been received and approved, the I-20 will be issued.

If you have questions about admissions, please visit:

fullerton.edu/admissions/ProspectiveStudent/International.asp or email admissions@fullerton.edu.

IT'S ALL HERE!

When you consider our premier location in Southern California – and all it has to offer – it's hard to imagine being anywhere else. Here are just some of the great places to visit during your stay:

Downtown Fullerton	5 km
Disneyland	12 km
Newport Beach	35 km
Laguna Beach	45 km
Downtown Los Angeles	48 km
Universal Studios	52 km
Sunset Strip, Hollywood	61 km
Museum of Contemporary Art	62 km
Catalina Island	66 km
Santa Monica Pier	71 km
Gatty Museum	77 km
Magic Mountain Theme Park	105 km
Arrowhead Lake	110 km
Big Bear Lake & Mountains	138 km
San Diego	143 km
Mt. Whitney (Elev. 14,400 ft.)	378 km
Las Vegas, NV	408 km
Sequoia National Park	436 km
Death Valley National Park	449 km
Yosemite National Park	548 km
San Francisco	662 km
Grand Canyon, AZ	774 km
Lake Tahoe, CA	829 km

Housing for International Students

Since many students prefer to live near campus, the International Student Services (ISS), University Extended Education (UEE) office would like to encourage all students to make housing arrangements BEFORE their arrival. Housing applications and request deadlines are listed below. Please note that applications are processed in the order received. Spaces are limited; students should apply as early as possible.

Application Period:

- Spring semester: November 1 – January 5
- Spring 2nd Entry: February 1 – March 10 (ALP students only*)
- Summer: May 1 – May 30 (ALP students only*)
- Fall semester: March 1 – July 20
- Fall 2nd Entry: September 1 – October 1 (ALP students only*)

*2nd Entry and Summer deadlines are for American Language Program (ALP)

For more information about housing options in Fullerton or to request an application, please contact the International Student Services, UEE office: internationalhousing@fullerton.edu or visit extension.fullerton.edu/international/housing

CSUF Housing and Residence Life

- CSUF Housing and Residence Life is located on campus
- Furnished rooms include: bed, desk, chair, lamp, closet
- Dormitory offers Private rooms (1 student per room) and Shared rooms (2 students per room)
- Each apartment includes kitchen, dining room area, living room
- Dormitory offers 4 meal plans
- Rent is based on the room type and a meal plan
- Utilities and internet are included in rent
- Contract: Academic Year (August-May). Limited spaces are available for one semester only (Spring or Fall). Prices for one semester are going to be adjusted accordingly.

Accommodations	Bathroom	Range of prices per semester	Utilities and Internet fee
Shared room	Shared	from 5 payments of \$975 to 5 payments of \$1214	Included in rent
Private room	Shared	from 5 payments of \$1238 to 5 payments of \$1477	Included in rent

University Village / Private Dormitory

- University Village is located across the street from campus
- University Village is a privately owned student housing dormitory
- Furnished rooms include: bed, desk, chair, lamp, closet
- All bedrooms in the University Village are private
- Each apartment includes kitchen, dining room area, living room
- University Village offers 2 meals per day (Monday-Friday)
- Rent is based on the room type
- Utilities are included in rent
- Proof of renter's insurance is required. Students can select the insurance company of their choice or ask UV for suggestions
- Contract: Academic Year (August-May). Limited spaces are available for one semester only (Spring or Fall). Prices for one semester are going to be adjusted accordingly.

Accommodations	Bathroom	Range of prices per semester	Utilities and Internet fee
Private room	Shared	from 5 payments of \$975 to 5 payments of \$995	Included in rent
Private room	Private	from 5 payments of \$1065 to 5 payments of \$1145	Included in rent

Note: Prices and contracts for the ALP 2nd Entry students will be adjusted accordingly.
Housing prices are subject to change.

ISS Cultural Homestay Program

- Homestay program offers: cultural exchange, daily practice of conversational English
- 4 meal plans
- Furnished rooms include: bed, desk, chair, lamp, closet
- Utilities are included in rent
- Rent is based on the meal plan
- Homestays are located 1.5-4.0 miles away from campus. Students can bike or take a bus to and from school
- Required contract: one semester
- Homestay placement is based on availability and is not guaranteed.

Accommodations	Bathroom	Range of prices per semester	Internet fee
Private room	Shared	from 4 payments of \$700 to 4 payments of \$900 / Fall	\$10 per month
Private room	Shared	from 4 payments of \$650 to 4 payments of \$850 / Spring	\$10 per month
Private room	Shared	from 2 payments of \$650 to 2 payments of \$850 / Summer	\$10 per month

University House / Private Apartment Community

- University House is located down the street from campus
- University House is a privately owned apartment community
- University House offers 10 floor types (private and shared bedrooms)
- All apartments are fully furnished and include all utilities (Electricity, Water, Sewer, Trash, Basic Cable w/ HBO and Internet)
- University House offers individual leases for each student
- Required contract: 12 months. Students can transfer their lease to another person if they are not able to stay in Fullerton for 12 months. It is the student's responsibility to find a replacement
- Rent per person ranges between: \$870-\$1675

Apartments

General information about apartments in Fullerton

- Students can reserve an apartment BEFORE or AFTER their arrival
- Apartments are located walking distance to campus
- Fullerton apartment types: Studio, 1 bedroom, 2 bedrooms
- Apartments are NOT furnished (students can rent or buy furniture)
- Contracts for 3, 6 or 12 months are required
- Utilities (water, gas, trash, electricity, internet) are not included in the rent

Apartment types and PRICES

Students can select 1 out of 3 apartment types: Studio, 1 bedroom or 2 bedroom apartments. Apartments include 1 or 2 bedrooms, living room, dining room area, kitchen and 1 or 2 bathrooms. Most properties have swimming pools and laundry facilities.

- One bedroom apartments in the Fullerton area range between \$1100-\$1300 per month for a short term lease / comfortable for 1-3 students
- Two bedroom apartments in the Fullerton area range between \$1400-\$1800 per month for a short term lease / comfortable for 1-5 students

Note: Prices and contracts for the ALP 2nd Entry students will be adjusted accordingly.
Housing prices are subject to change.

Chapter Eleven

Outstanding Alumni

"I GIVE TO CSUF BECAUSE THE UNIVERSITY CHANGED MY LIFE IN A MAJOR WAY."

Tracy Caldwell '83 ASTRONAUT

As a girl, Tracy Caldwell dreamed of a future as an astronaut—a future she is living out. At present, she is undergoing intensive

training in preparation for the August 2007 launch of Mission STS 118 to the International Space Station. She previously provided crew support for Expedition V on its journey to the International Space Station. As a mission specialist, she is responsible for space walks and operating the remote manipulator system as well as working with the ship's commander and pilot. Her preparation began in high school, where she took four years of math and science, and gained major internships as a chemistry major at Cal State Fullerton.

Chemistry professor Scott Hewitt invited her to apply for Fullerton's Research Experiences for Undergraduates, funded by the National Science Foundation. He remembers watching her improve. "When Tracy began here, she was not sure whether she had the ability to do undergraduate research. In her first presentation, she was very nervous and was visibly shaking. By the time she left CSUF, she was poised and confident."

As a result of her Fullerton training, Caldwell blitzed through a Ph.D. program at UC Davis in three years, earning the Outstanding Doctoral Student Award. Then she was one of 2,500 applicants for the astronaut program, surviving the first cut to be among the 122 people selected for more extensive screening. She became one of 17 mission

specialists chosen for the 1998 astronaut class—and at the time the youngest.

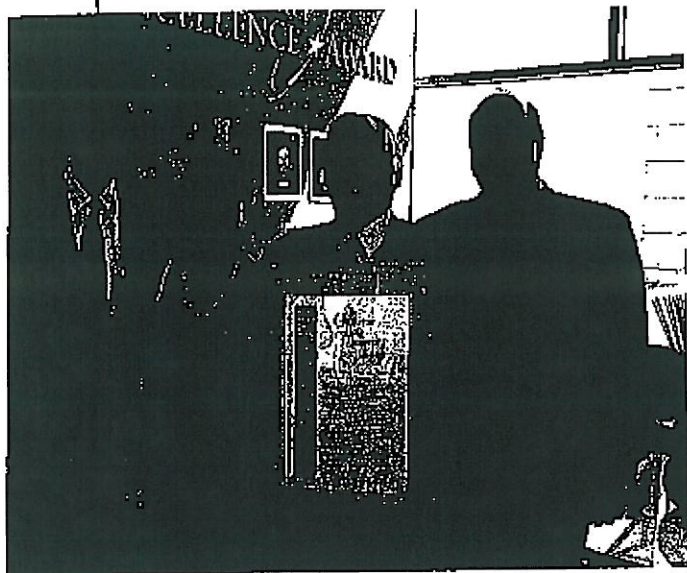

Astronauts undergo rigorous survival tests and physical training. Caldwell called on memories of Benny Brown, her college track coach, who inspired her to run faster or jump farther when she ran sprints and competed in the long jump.

She also recalled another crucial mentor, John Olmstead, professor of chemistry and biochemistry, who encouraged her to follow her dream. "When asked if I had the 'right stuff,' it was Dr. Olmstead who said to me that if determination was all it took, I could be whatever I wanted to be," Caldwell recalls. "I took that message to heart."

*Photo: NASA/ESA/ESA

Attired in training versions of their shuttle launch and entry suits, from left: Commander Scott Kelly, Pilot Charles Hobough, Mission Specialists Tracy Caldwell, Rick Mastracchio, Dafydd Williams and Barbara Morgan, and Expedition 15 Flight Engineer Clayton Anderson await the start of a training session in the Space Vehicle Mockup Facility at Johnson Space Center, Houston.

CSUF President Milton A. Gordon and Dean Steve Murray join Dan Black and his wife, Kathy, to thank them for Black's recent gift to the university.

"When asked if I had the 'right stuff' it was Dr. Olmstead who said to me if determination was all it took, I could be whatever I wanted to be. I took that message to heart."

Dan Black '67 ENTREPRENEUR

"The key to success is simple — hire good people who love to do what they do, treat them good, and let them do their job," says Dan Black, who has done that repeatedly, founding and directing several companies. He sold one of them, Advanced Medical Nutrition, for more than \$16 million in 1998.

Currently the president of ProThera Inc., a nutritional supplement company based in Reno, Black is a major benefactor of Cal State Fullerton, where he majored in physics. "I give to CSUF because the university changed my life in a major way," he explains.

"Since 1998, Dan Black has provided extraordinary scholarship support for physics majors," says Roger Nanes, former chair and professor of physics. "His junior and senior scholarships have allowed physics majors to concentrate on their advanced course work with a reduced burden to work for outside income. Since 1999, he has provided the funds to establish the Dan Black Program in Physics and Business."

Launched the following year, the program — believed to be the only one of its kind in the nation — is designed for physics majors who want to apply their technical knowledge to launch businesses or join the management teams of technology-related companies. Students in the program complete courses in finance, management,

marketing and advanced business communication.

Most recently, he donated \$4.5 million to the College of Natural Sciences and Mathematics. The funds will refurbish laboratories, purchase new equipment and finance student scholarships.

"Dan Black has often stated that his wish is to provide opportunity to physics majors that he never had, that is, to allow them to focus on their education and to prepare them for their careers after graduation," says Nanes. "His extraordinary generosity has done much to make that a reality."

Jack O'Connell '73 CALIFORNIA STATE SUPERINTENDENT OF PUBLIC INSTRUCTION

tested candidate in the country. His election built on 20 years of service in both houses of the state legislature, where he concentrated on efforts to improve public education. He

In 2002, when Jack O'Connell ran for State Superintendent of Public Instruction, he gained more votes than any other con-

is a longtime advocate for smaller class sizes, improved teacher recruitment and retention, comprehensive testing and modern school facilities.

"Many believe that college prepares you for the 'real world,'" he says. "However, I believe that college is a real-world experience that helps you build habits for successful living at any stage of life.

"As a student at Cal State Fullerton, I had a passion for history and an eagerness to expand my horizons by connecting with others different from myself. I remember waking up early to finish a paper, staying up all night to perfect a project, or just having discussions with others with the same interests and passions. I learned teamwork and discipline, and the importance of stretching myself to succeed in difficult subject areas in order to achieve a goal.

"The habits I learned as a student have served me well in life as a teacher, a legislator and statewide official. I still stay up late into the night working on education policy. I wake up early to go over speeches, and I continue to discuss issues and try to seek consensus with others whose views may be different from mine. I use what I learned in college in all aspects of my profession, past and present. My experience at Cal State Fullerton was not a step towards the so-called real world but a real-world experience that prepared me well for a lifetime of learning."

Miguel Pulido is mayor of Santa Ana.

Miguel Pulido '80 MAYOR OF SANTA ANA

Miguel Pulido majored in mechanical engineering, but for the past two decades he has dealt with stress points and fractures of a different kind. Elected to the Santa Ana City Council in 1986, he is serving his sixth term as mayor. The city has flourished over the past two decades, its population increasing by 70 percent. To promote business growth and job opportunities, Mayor Pulido convinced the State of California to designate Santa Ana as an enterprise zone, offering state tax credits and other business incentives. The mayor is especially proud of the decrease in crime during his tenure. The crime rate is now at its lowest since 1963, and Santa Ana is one of the 50 safest most populated cities in the U.S.

"My experience at Cal State Fullerton has lasted a lifetime," Pulido says. "Fullerton helped me discover a very exciting world and new possibilities. My education gave me a solid foundation to build on. The knowledge, skills and personal growth I gained have served me well, both as an individual and in my service to the community. I appreciate Fullerton's multicultural campus community and the university's focus on achievement and inclusion. Extending access to quality higher education opportunities is a national priority, and I am proud to have graduated from a university which earns top ranks in awarding undergraduate degrees to Latinos. I thank all of the dedicated profes-

sors who challenged me and provided a great overall learning experience."

Steven Mihaylo '69 BUSINESS EXECUTIVE

Steve Mihaylo worked the graveyard shift at McDonnell Douglas while studying business administration at Cal State Fullerton. As a result, he recalls, "My time at Fullerton whizzed by in a big hurry." Nevertheless, he recalls his accounting professors. "They could relate their real-world experiences in realistic situations as they taught us, and that was excellent for students as we learned theory. I found it an excellent learning situation."

His first position after graduation was with a small telecommunications firm. Later he went from being the sole employee in his own shop to leader of a global organization: Inter-Tel, a publicly traded

provider of communications hardware, software and services. He is recently retired as its chairman, president and chief executive officer. The telecommunications firm where he first worked became a partner in the company.

Mihaylo has pledged \$4.5 million to the College of Business and Economics—one of the largest cash pledges in the university's history. To honor his generosity, the university will name the college's future building Steven G. Mihaylo Hall.

"I think the partnership of myself, all the academicians and the Cal State Fullerton alumni throughout the state have a real opportunity to build something special here, and I'm not just talking about the building itself," Mihaylo told the California State University trustees. "I'm talking about the opportunity to gain national prominence for the business school. That's my real goal."

Steven G. Mihaylo is one of the university's most generous donors.

Deborah Voigt INTERNATIONAL OPERA STAR

Deborah Voigt, like her rich and lustrous voice, has soared since her early, critically acclaimed successes in Richard Strauss' "Ariadne auf Naxos" and "Elektra" with the Boston Lyric and Metropolitan Operas, respectively.

The *Wall Street Journal* has described her performances as "seemingly effortless singing" and *USA Today* says of her, "There comes a point in a Deborah Voigt opera performance, at the end of a difficult aria, when you think she has given her all. Suddenly, the voice hits overdrive — and a whole new level of vocal power. Audiences go wild."

Many consider her unequalled in her repertoire of operas by German composers Richard Wagner — "Tristan und Isolde," "Lohengrin," "Die Walküre" — and Strauss.

Of this success and her reputation in these roles, Voigt points to former Cal State Fullerton voice teacher and coach, Professor Jane Paul. "Jane's own background was in German music. She worked extensively on my German diction.

"My voice is larger than most; the color is very bright, so it naturally lends itself to a particular category of music that includes many German roles. My first successes happen to have been in German roles, so I think I became identified with that. I also have that sort of Nordic, Germanic look, being blond and blue-eyed, so that also had something to do with it."

Voigt, a graduate of El Dorado High School, first began singing in church choirs. After Cal State Fullerton, she was snatched up by San Francisco's Merola Program and awarded an Adler Fellowship. Among her

honors are a first prize in Philadelphia's Luciano Pavarotti Vocal Competition as well as the Gold Medal in Moscow's Tchaikovsky Competition.

During her undergraduate days, Voigt sang in operas, including "Suor Angelica," "La Traviata" and "Don Giovanni." Dean Hess, emeritus professor of theatre and dance, directed the productions and recalled, "She had a glorious voice. Whether or not it would be the world-class quality that it is, I had no idea — I'm not trained to tell. All I knew was that I could listen to her any time, all the time."

Although not raised on opera, Voigt was open to it. "I think it was really curiosity more than anything else. I didn't have any

idea what it was all about, so I didn't think of it as being an antiquated art form of another culture. Quite frankly, Jane could have asked me to sing the theme song from 'Gilligan's Island' and I would have done it — she's a very persuasive woman."

Paul also has traveled to New York, Europe and San Francisco to see her former protégé on stage and is clearly proud of Voigt's achievements.

"We saw her perform in her first 'Tristan und Isolde' in Vienna, and it was so exciting, because she got a 23-minute ovation. At the end of her big soprano solo, it was quiet at first; just as quiet as could be. And then the applause started and it grew and it grew. It was wonderful!"

Deborah Voigt didn't sing opera until college, but has become one of the world's most popular sopranos.
