The 3rd ESBB (English Scholars beyond Borders) Conference

May 19-22, 2016

Providence University, Taichung, Taiwan

Conference Website: <http://mlab.cs.pu.edu.tw/2016ESBB/>

Conference Theme: Language Teaching and Learning across Borders

When we think of language teaching, we automatically think about the borders between countries; but in our discipline, there are also many other kinds of borders.

Innovative language teachers may be called upon to teach beyond the classroom borders. Experienced language teaching scholars also encounter boundaries between cultures, between disciplines, between subject areas, and even the intersections of ideas about curriculum design. Collaboration with teachers across disciplines, with technology experts, with international partners, and even learning collaborations with students is prevalently encouraged.

The 3rd annual English Scholars beyond Borders conference, **May 19-22, 2016**, will explore the diverse kinds of borders and boundaries that language teachers and scholars must negotiate to achieve success and to benefits learners.
